

11 March 2009

## **Overview of PhD dissertations where Betty Collis and/or Jef Moonen were primary supervisors, 1988-2005<sup>1</sup>**

Amal Al-Hammar, (awarded, 31 March 2006) *Electronic portfolios in Kuwait higher education*

Anoush Margaryan, (awarded, 17 February 2006), *Web-based learning for technical professionals: A blend of pedagogy and technology*

Manuela Bianco, (awarded, 3 February 2006), *Support for work-based blended learning: The supervisor and the workplace community*

Gerard Gervedink Nijhuis, (awarded 14 September 2005), *Academics in control: Supporting personal performance for teaching-related managerial activities*

Pieter De Vries, (awarded 10 June 2005), *An analysis framework approach for managing corporate e-learning development*

Allard Strijker, (awarded 29 September, 2004), *Reusability of learning objects in context: Human and technical aspects*

Wim De Boer (awarded 13 February 2004), *Flexibility support for a changing university*

Salah Al-Thuwaini, (awarded 27 August 2003), *Navigational support for using virtual reality*

Kholoud Al-Najjar, (awarded 19 June, 2002), *The application of blended computer-based training (CBT) in the Public Authority for Applied Education and Training (PAAET) in Kuwait*

Gerrit Hiddink, (awarded 2001). *Educational multimedia databases*

Lora Aroyo, (awarded 2001). *Task-oriented approach to information handling support within Web-based education*

Slavi Stoyanov, (awarded 2001), *Mapping as a learning method in problem solving design*

Petra Fisser, (awarded 2001), *Using information and communication technology: A process of change in education*

Jan van der Veen, (awarded 2001), *Project-based tele-learning: Analysis, modelling, design and evaluation*

Koos Winnips, (awarded 2001), *Scaffolding the development of skills in the design process for educational media through hyperlinked units of learning materials*

Huai Heling, (awarded 2000), *Cognitive style: Its relations to memory capacity and concept mapping*

---

<sup>1</sup> At the University of Twente unless otherwise noted

Carla Verwijs, (awarded 1998), *A mix of core and complementary media: New perspectives in media-decision making*

Chris Blom, (awarded 1997), *Usage-oriented courseware development for agricultural education* (University of Twente and University of Wageningen. Promotors: Prof. dr. J. Moonen, Prof. dr. van Bergeijk)

Joachim Wetterling, (awarded 1996), *Decision making and educational media. ESTIMA: A computer-based support tool*

Elske Heeren, (awarded 1996), *Technology support for collaborative distance learning*

Zhang Ji. Ping, (awarded 1996), *Investigating the portability of multimedia learning resources: Design for a "Teaching Models Toolkit "*

Zhu Zhi Ting, (awarded 1996), *Cross-cultural portability of educational software: A communication-oriented approach*

Sjoerd de Vries, (awarded 1996), *Aangepaste courseware: Vormgeving en betekenis. Aspecten van een methodologie van het onderzoeken van courseware-ontwerpproblemen* (Adaptable courseware: Design and implications. Aspects of a methodology for researching courseware design problems)

Al-Noor Ladhani, (awarded 1995), *Modelling and using performance knowledge for courseware design*

Hilbert Kuiper, (awarded 1995), *An instructional support system for training simulators*

Diana Aarntzen, (awarded 1994), *Audio in interactive tutorial courseware: Methodological and design guidelines*

Pløn Verhagen, (awarded 1992), *Length of segments in interactive video programmes*

Piet Kommers, (awarded 1991), *Hypertext and the acquisition of knowledge*

For a full listing of PhDs where Jef or Betty served on the supervising or evaluating committee other than being the primary supervisor see our Web sites, <http://users.gw.utwente.nl/collis/> and <http://users.gw.utwente.nl/moonen/>
